

ANNUAL REPORT  
of the  
MEDICAL OFFICER OF HEALTH  
*for the Year, 1938.*

---

---

*TO THE MAYOR, ALDERMEN AND COUNCILLORS FOR  
THE BOROUGH OF LYDD.*

**MR. MAYOR, ALDERMEN AND COUNCILLORS,**

The area of the Borough is 11,937 acres.

The Resident Population in Mid-1938, as estimated by the Registrar General was 2,947.

The number of inhabited houses at the end of the year 1938, according to the Rate Books was 864.

The Rateable Value was £13,304.

The sum represented by a penny rate was £53.

There was no unusual or excessive mortality.

The conditions of occupation and environment are excellent:

There was no serious unemployment.

## PUBLIC HEALTH OFFICERS AND SERVICES.

The Public Health Officers are the Medical Officer of Health, who is a part-time officer, and the Sanitary Inspector, who is also the Surveyor and Building Inspector and is a whole-time officer.

In June, Mr. N. J. Arney, who was your Sanitary Inspector, resigned, and you appointed Mr. John Topham in his stead and he commenced duties on 26th July.

Pathological and Bacteriological examinations are carried out at the County Laboratory at Maidstone.

Diphtheria Antitoxin is supplied free to any medical practitioner who considers its administration necessary or advisable. A small stock is kept and is obtainable from me at any time.

The Lydd, New Romney and District Branch of the St. John Ambulance Association have a modern and up-to-date Motor Ambulance which is available for use in the borough and the council subscribes towards its upkeep.

To meet with the requirements of the new Midwives Act, the Kent County Nursing Association has established a nurse in the borough, who carries out general district nursing as well as midwifery.

There is a Child Welfare Centre in the borough which is held twice a month, but this service is under the County Medical Officer.

Public Assistance is administered in the borough by the County Council.

Complicated Maternity cases can be sent to one of the general hospitals and cases of Puerperal Fever would go to the Isolation Hospital at Folkestone.

You maintain your own Isolation Hospital and during the year only one case, Scarlet Fever, required to be removed to it.

Your arrangement with the Corporation of Hastings for the reception of cases of small pox is still in force.

## WATER.

Complaints continue to be received about the water being over-chlorinated and also a shortage occurred during the August Bank Holiday period. As the overchlorination had been pointed out to the Company and the shortage of supply during droughts had occurred on previous occasions and the Littlestone Water Company did not appear to be taking any proper steps to improve these conditions, you, together with the neighbouring councils of New Romney and Romney Marsh, wrote to the Minister of Health asking him to send down an Engineer Inspector to investigate the complaints, and on 11th August, Mr. J. Gardner, M.Inst.C.E., of the Ministry came to New Romney and held an informal enquiry at the Town Hall, where a number of consumers attended and made their complaints to the Inspector and it was pointed out to him that we were dissatisfied with the way the process of chlorination was being carried out and that we did not consider the company had taken all the steps necessary to look for more water which we believed could be found in the beach. Afterwards the Inspector visited the Company's wells, and pumping stations. Since this there has been an improvement in the process of chlorination although two samples of water have shewn over-chlorination in a small degree.

The Company has sunk three extra wells and, we are given to understand, have obtained water which in their opinion will be sufficient for the future requirements of their statutory area.

## DRAINAGE AND SEWAGE.

There has been no alteration in the Drainage and disposal of Sewage during the year.

The council are considering the adoption of New Building Bye-Laws and it is hoped to bring them into force before 1st July next.

## HOUSING.

Housing conditions remain the same.

## INFECTIOUS DISEASES notified during the year:

Scarlet Fever	...	...	...	...	I
Pneumonia	...	...	...	...	2

The case of Scarlet Fever was removed to the Isolation Hospital.

The Report of the Sanitary Inspector is appended.

I would like to thank the Clerk for his assistance in the preparation of this report.

I am, Gentlemen,

Your obedient servant,

ARNOLD McMILLAN.

*5th June, 1939*

## URBAN DISTRICT OF LYDD, 1938.

*Nuisances and defects remedied during the year (other than those enumerated in the above tabulation):*
